**Subject:** Emergency Declaration by Navajo Nation and Church Rock Chapter

Hi Everyone,  
Received word from Harlan Cleveland that there will be an emergency declaration signing event with President Begay and other senior Navajo officials today at 1 p.m. in Window Rock. The declaration will cover the entire San Juan River.

There will be another emergency declaration signing event later in the afternoon at the Shiprock Chapter House.

Harlan expressed they would like to host another public mtg today or tomorrow in Shiprock to provide a general update to the community, review highlights of water sampling data and what those results mean for residents, and provide the opportunity for the community to ask questions. From the statement PDF Enrique sent around and Harry's update last night, I believe we have the facts as we know them know, and if there's anything else you would like for us to share, please let me know.

Secody and I will be landing in CO at 3:30 and will provide any additional updates after we have a chance to meet with Navajo Nation in Shiprock.

David
